EL PASO COUNTY TORNILLO WATER IMPROVEMENT DISTRICT
NOTICE OF RULE MAKING

The El Paso County Tornillo Water Improvement District (the "District") hereby gives notice that it has adopted new Rules Governing the Furnishing and Control of Water and Sewer Services within the District (the "Rules"). Breach of these rules will subject violators to civil penalties of up to $5,000.00, exclusive of interest.

Substantive Statement of the Amendment to the Rules and Regulations

On August 28, 2003, the District's Board of Directors adopted a comprehensive revision of its existing Rules and Regulations. This notice sets forth the substance of the adopted Rules and a brief explanation of the structure and context of the Rules. Although the new Rules reference various one-time fees and charges related to services provided by the District, the specific fees, monthly rates for water, sewer and other charges may be set forth in separate rate and fee orders issued by the District's Board of Directors. A chapter by chapter analysis summary of the new Rules to help District residents and customers understand the Rules is as follows:

sets forth the definition of the terms which are used in the new Rules.

! lays out the Rules which are generally applicable to all the types of services rendered by the District. It prohibits the free use of any service of the District system and requires that only one meter or one service be provided per dwelling, building, or lot. All dwellings and businesses within the boundaries of the District which require water for their ordinary and customary use and which have water lines located within 100 horizontal feet of a dwelling or business must normally connect to the District's system within 90 days after service becomes available. A customer may appeal in writing any ruling or action by a member of the District staff charged with the responsibility of making such ruling. In addition to the penalty stated above, the District may also disconnect water service as provided for by the Rules and/or an application for water service may be dismissed and any further processing terminated.
